

ProjectHub API Documentation

Module-wise endpoints with request and response JSON samples

Base URL	http://localhost:8081
Backend	Spring Boot, MySQL demo database, MongoDB projecthub database
MySQL source	demo.sql: users, students, faculty, admin_settings, audit_logs
MongoDB source	Code models: projects, certificates, notifications, deadline_rules
Test status	Only DemoApplicationTests.contextLoads() exists. Module-wise API tests are not implemented.
Verification note	mvnw.cmd test failed locally: Cannot start maven from wrapper.

Module Summary

Module	Endpoint Count
Authentication	2
Users	9
Profiles	4
Settings and Analytics	4
Notifications	4
Audit Logs	1
Projects	16
Certificates	8
Deadline Rules	4
Admin	5

Authentication

POST /users/login

Purpose	Login and receive JWT token.
Auth	Public / no JWT required in current SecurityConfig
Params	{}

Request JSON

```
{
  "email": "admin@gmail.com",
  "password": "123"
}
```

Response JSON

```
{
  "token": "eyJhbGciOiJIUzI1NiJ9...",
  "id": 8,
  "role": "ADMIN",
  "fullName": "Admin"
}
```

POST /auth/register

Purpose	Register a new user.
Auth	Public / no JWT required in current SecurityConfig
Params	{}

Request JSON

```
{
  "fullName": "Test Student",
  "email": "student@test.com",
  "password": "Password@123",
  "role": "STUDENT",
  "username": "teststudent"
}
```

Response JSON

```
{
  "id": 30,
  "fullName": "siva",
  "email": "siva062005@gmail.com",
  "role": "STUDENT",
  "username": null,
  "assignedSubject": null
}
```

Users

POST /users

Purpose	Create a user.
Auth	Bearer JWT required after login
Params	{}

Request JSON

```
{
  "fullName": "Swathi",
  "email": "swathi@test.com",
  "password": "Password@123",
  "role": "STUDENT"
}
```

Response JSON

```
{
  "id": 41,
  "fullName": "Swathi",
  "email": "swathi@test.com",
  "role": "STUDENT"
}
```

GET /users

Purpose	Get all users.
Auth	Bearer JWT required after login
Params	{}

Request JSON

No request body

Response JSON

```
[
  {
    "id": 8,
    "fullName": "Admin",
    "email": "admin@gmail.com",
    "role": "ADMIN",
    "username": null,
    "assignedSubject": null
  },
  {
    "id": 30,
    "fullName": "siva",
    "email": "siva062005@gmail.com",
    "role": "STUDENT",
    "username": null,
    "assignedSubject": null
  },
  {
    "id": 38,
    "fullName": "John Doe",
    "email": "faculty1@demo.com",
    "role": "FACULTY",
    "username": null,
    "assignedSubject": "Computer Science"
  }
]
```

GET /users/{id}

Purpose	Get user by id.
Auth	Bearer JWT required after login

Params	<pre>{ "id": 30 }</pre>
---------------	---------------------------

Request JSON

No request body

Response JSON

```
{
  "id": 30,
  "fullName": "siva",
  "email": "siva062005@gmail.com",
  "role": "STUDENT",
  "username": null,
  "assignedSubject": null
}
```

PUT /users/{id}

Purpose	Update user and role profile fields.
Auth	Bearer JWT required after login
Params	<pre>{ "id": 30 }</pre>

Request JSON

```
{
  "fullName": "Student Updated",
  "department": "CSE",
  "year": "2026"
}
```

Response JSON

```
{
  "id": 30,
  "fullName": "Student Updated",
  "email": "siva062005@gmail.com",
  "role": "STUDENT"
}
```

DELETE /users/{id}

Purpose	Delete user by id.
Auth	Bearer JWT required after login
Params	<pre>{ "id": 42 }</pre>

Request JSON

No request body

Response JSON

User deleted successfully

GET /users/search?name=siva

Purpose	Search users by full name.
Auth	Bearer JWT required after login
Params	<pre>{ "name": "siva" }</pre>

Request JSON

No request body

Response JSON

```
[
  {
    "id": 30,
    "fullName": "siva",
    "email": "siva062005@gmail.com",
    "role": "STUDENT",
    "username": null,
    "assignedSubject": null
  }
]
```

GET /users/filter/role?role=STUDENT

Purpose	Filter users by role.
Auth	Bearer JWT required after login
Params	{ "role": "STUDENT" }

Request JSON

No request body

Response JSON

```
[
  {
    "id": 30,
    "fullName": "siva",
    "email": "siva062005@gmail.com",
    "role": "STUDENT",
    "username": null,
    "assignedSubject": null
  }
]
```

PUT /users/assign-faculty/{id}?subject=Computer%20Science

Purpose	Assign subject to a faculty user.
Auth	Bearer JWT required after login
Params	{ "id": 38, "subject": "Computer Science" }

Request JSON

No request body

Response JSON

```
{
  "id": 38,
  "fullName": "John Doe",
  "email": "faculty1@demo.com",
  "role": "FACULTY",
  "username": null,
  "assignedSubject": "Computer Science"
}
```

POST /users/bulk-upload

Purpose	Bulk register users from Excel file.
Auth	Bearer JWT required after login
Params	{}
Notes	Consumes multipart/form-data.

Request JSON

```
{  
  "file": "users.xlsx (multipart/form-data)"  
}
```

Response JSON

```
{  
  "created": 10,  
  "failed": 0,  
  "errors": []  
}
```

Profiles

GET /users/student/profile/{id}

Purpose	Get student profile.
Auth	Bearer JWT required after login
Params	{ "id": 2 }

Request JSON

No request body

Response JSON

```
{  
  "id": 2,  
  "department": "ai/ds",  
  "studentCode": "STU-S157",  
  "section": null,  
  "enrollmentYear": null,  
  "year": "2024",  
  "githubUrl": "https://github.com/testuser",  
  "linkedinUrl": "https://linkedin.com/in/testuser",  
  "leetcodeUrl": "https://leetcode.com/testuser",  
  "hackerrankUrl": "https://hackerrank.com/testuser",  
  "portfolioUrl": "https://testuser.dev",  
  "faculty": {  
    "id": 2,  
    "department": "CSE",  
    "specialization": "Artificial Intelligence"  
  },  
  "user": {  
    "id": 30,  
    "fullName": "siva",  
    "email": "siva062005@gmail.com",  
    "role": "STUDENT"  
  }  
}
```

PUT /users/student/profile/{id}

Purpose	Update student profile.
Auth	Bearer JWT required after login
Params	{ "id": 2 }

Request JSON

```
{  
  "department": "CSE",  
  "year": "2026",  
  "githubUrl": "https://github.com/testuser"  
}
```

Response JSON

```
{  
  "id": 2,  
  "department": "ai/ds",  
  "studentCode": "STU-S157",  
  "section": null,  
  "enrollmentYear": null,  
  "year": "2024",  
  "githubUrl": "https://github.com/testuser",  
  "linkedinUrl": "https://linkedin.com/in/testuser",  
  "leetcodeUrl": "https://leetcode.com/testuser",  
  "hackerrankUrl": "https://hackerrank.com/testuser",  
  "portfolioUrl": "https://testuser.dev",  
  "faculty": {  
    "id": 2,  
    "department": "CSE",  
    "specialization": "Artificial Intelligence"  
  }  
}
```

```

    },
    "user": {
      "id": 30,
      "fullName": "siva",
      "email": "siva062005@gmail.com",
      "role": "STUDENT"
    }
  }
}

```

GET /users/faculty/profile/{id}

Purpose	Get faculty profile.
Auth	Bearer JWT required after login
Params	<pre> { "id": 2 } </pre>

Request JSON

No request body

Response JSON

```

{
  "id": 2,
  "department": "CSE",
  "specialization": "Artificial Intelligence",
  "facultyCode": null,
  "section": null,
  "joiningYear": null,
  "user": {
    "id": 38,
    "fullName": "John Doe",
    "email": "faculty1@demo.com",
    "role": "FACULTY"
  }
}

```

PUT /users/faculty/profile/{id}

Purpose	Update faculty profile.
Auth	Bearer JWT required after login
Params	<pre> { "id": 2 } </pre>

Request JSON

```

{
  "department": "CSE",
  "specialization": "Cloud Computing",
  "section": "A"
}

```

Response JSON

```

{
  "id": 2,
  "department": "CSE",
  "specialization": "Artificial Intelligence",
  "facultyCode": null,
  "section": null,
  "joiningYear": null,
  "user": {
    "id": 38,
    "fullName": "John Doe",
    "email": "faculty1@demo.com",
    "role": "FACULTY"
  }
}

```

Settings and Analytics

POST /users/settings

Purpose	Save admin settings.
Auth	Bearer JWT required after login
Params	{}

Request JSON

```
{
  "submissionDeadline": "30-05-2026",
  "maxResubmissions": 3,
  "maxFileSize": 25,
  "allowedFileTypes": "pdf,docx,png"
}
```

Response JSON

```
{
  "id": 1,
  "submissionDeadline": "30-05-2026",
  "maxResubmissions": 3,
  "maxFileSize": 25,
  "allowedFileTypes": null
}
```

GET /users/settings

Purpose	Get admin settings.
Auth	Bearer JWT required after login
Params	{}

Request JSON

No request body

Response JSON

```
[
  {
    "id": 1,
    "submissionDeadline": "30-05-2026",
    "maxResubmissions": 3,
    "maxFileSize": 25,
    "allowedFileTypes": null
  }
]
```

GET /users/admin/analytics

Purpose	Get admin analytics.
Auth	Bearer JWT required after login
Params	{}

Request JSON

No request body

Response JSON

```
{
  "totalUsers": 13,
  "totalProjects": 0,
  "approvedProjects": 0,
  "pendingProjects": 0,
  "totalCertificates": 0,
  "approvedCertificates": 0,
  "facultyCount": 2
}
```

GET /dashboard

Purpose	Get dashboard counts.
Auth	Bearer JWT required after login
Params	{}

Request JSON

No request body

Response JSON

```
{
  "totalProjects": 1,
  "approvedProjects": 0,
  "pendingProjects": 1,
  "verifiedCertificates": 0
}
```

Notifications

POST /users/notifications

Purpose	Create MongoDB notification.
Auth	Bearer JWT required after login
Params	{}

Request JSON

```
{
  "id": "665f12d8e6a7c1f0a91c0003",
  "userId": 30,
  "role": "STUDENT",
  "title": "Project Approved",
  "message": "Your project review has been updated.",
  "type": "success",
  "read": false,
  "createdAt": "2026-06-02T09:30:00"
}
```

Response JSON

```
{
  "id": "665f12d8e6a7c1f0a91c0003",
  "userId": 30,
  "role": "STUDENT",
  "title": "Project Approved",
  "message": "Your project review has been updated.",
  "type": "success",
  "read": false,
  "createdAt": "2026-06-02T09:30:00"
}
```

GET /users/notifications/{userId}

Purpose	Get notifications for a user.
Auth	Bearer JWT required after login
Params	{ "userId": 30 }

Request JSON

No request body

Response JSON

```
[
  {
    "id": "665f12d8e6a7c1f0a91c0003",
    "userId": 30,
    "role": "STUDENT",
    "title": "Project Approved",
    "message": "Your project review has been updated.",
    "type": "success",
    "read": false,
    "createdAt": "2026-06-02T09:30:00"
  }
]
```

PUT /users/notifications/read/{id}

Purpose	Mark notification as read.
Auth	Bearer JWT required after login
Params	{ "id": "665f12d8e6a7c1f0a91c0003" }

Request JSON

No request body

Response JSON

```
{
  "id": "665f12d8e6a7c1f0a91c0003",
  "userId": 30,
  "role": "STUDENT",
  "title": "Project Approved",
  "message": "Your project review has been updated.",
  "type": "success",
  "read": true,
  "createdAt": "2026-06-02T09:30:00"
}
```

DELETE /users/notifications/{id}

Purpose	Delete notification.
Auth	Bearer JWT required after login
Params	<pre>{ "id": "665f12d8e6a7c1f0a91c0003" }</pre>

Request JSON

No request body

Response JSON

Notification deleted

Audit Logs

GET /users/audit-logs

Purpose	Get audit logs from MySQL.
Auth	Bearer JWT required after login
Params	{}

Request JSON

No request body

Response JSON

```
[
  {
    "id": 11,
    "actionTitle": "User Created",
    "description": "Created new user: priyasri",
    "performedBy": {
      "id": 43,
      "fullName": "priyasri"
    },
    "createdAt": "2026-06-01T15:54:03"
  }
]
```

Projects

POST /projects/upload

Purpose	Upload project/certificate file.
Auth	Bearer JWT required after login
Params	{}
Notes	Consumes multipart/form-data.

Request JSON

```
{
  "file": "projecthub.pdf (multipart/form-data)"
}
```

Response JSON

```
1717315200000_projecthub.pdf
```

GET /projects/download/{fileName}?inline=true

Purpose	Download or preview uploaded file.
Auth	Bearer JWT required after login
Params	{ "fileName": "projecthub.pdf", "inline": true }

Request JSON

No request body

Response JSON

Binary file stream

POST /projects/mongo

Purpose	Create MongoDB project.
Auth	Bearer JWT required after login
Params	{}

Request JSON

```
{
  "id": "665f10b2e6a7c1f0a91c0001",
